Expanding the World of PIDs

Conference Identifier and their Role in Managing Metadata Quality

Dr Stephanie Hagemann-Wilholt,
Münster, November 19th 2019
EuroCRIS Membership Meeting

Agenda

1. Why Should I Attend Conferences?
2. Current Situation and Challenges
3. Potential of PIDs
4. Project ConfIDent
 - User-centred Approach
 - Technical Base
 - Metadata
 - Further Use of Metadata

Why Should I Attend Conferences?

- Informal and fast feedback from peers
→ independent from long publications lifecycles
- Opportunity to publish papers
- Broad and quick overview about new research topics and areas
- Networking

Problems with Data on Scholarly Events

1. **Availability** of scholarly event data:

- Scattered
- No long-term availability
- No acknowledgement of conference activities as research output

2. **Quality** of scholarly event data:

- Insufficient
- Again: no long-term availability
- Costly task to track conference activities
- Expert knowledge required for evaluating quality

ACM Advancing Technology, Research and Collaboration

ACM's events mirror the state-of-the-art in their respective fields and attract renowned experts from around the world.

ACM Open Conference Statement

The open exchange of ideas and the freedom of thought and expression are central to the aims and goals of ACM and its conferences. These aims and goals require an environment that recognizes the inherent worth of every person and group, that fosters dignity, understanding, and mutual respect, and that embraces diversity.

ACM is firmly committed to prohibiting discrimination at its conferences against individuals because of race, color, sex, sexual orientation, gender identity or expression, age, marital status, religion, national origin, ancestry, or disability. All individuals are entitled to participate in any ACM activity free of discrimination, including harassment based on any of the above factors.

ACM is concerned about discriminatory legislation in various locations and will work with conference organizers to help address location-related issues.

Fake Science

2019 Conferences of
World Academy of Science, Engineering and Technology (Waset)

OPEN SCIENCE RESEARCH EXCELLENCE

The screenshot displays the Waset website's conference page. At the top, there is a navigation bar with links for 'My Account', 'Conferences', 'Committees', 'Publications', and 'Support'. Below this is a filter section with tabs for 'by City', 'by Date', and 'by Area', followed by a year selector from 2019 to 2032. The main content area is a grid of 20 conference listings, each featuring a title, dates, location, and a submission deadline. Each listing is accompanied by a small image of the conference location. The conferences listed are: Prague 2019, Stockholm 2019, Paris 2019, Toronto 2019, Helsinki 2019, Berlin 2019, Rome 2019, Istanbul 2019, Zurich 2019, Montreal 2019, Amsterdam 2019, Vancouver 2019, New York 2019, Venice 2019, Barcelona 2019, Istanbul 2019 (repeated), Bangkok 2019, and London 2019.

Ambiguity of Conference Titles

Confusion by equal acronyms, e.g.:

SPSS

- International Conference on Science and Practice of Strength Sports
- IBM SPSS Statistics Users Conference

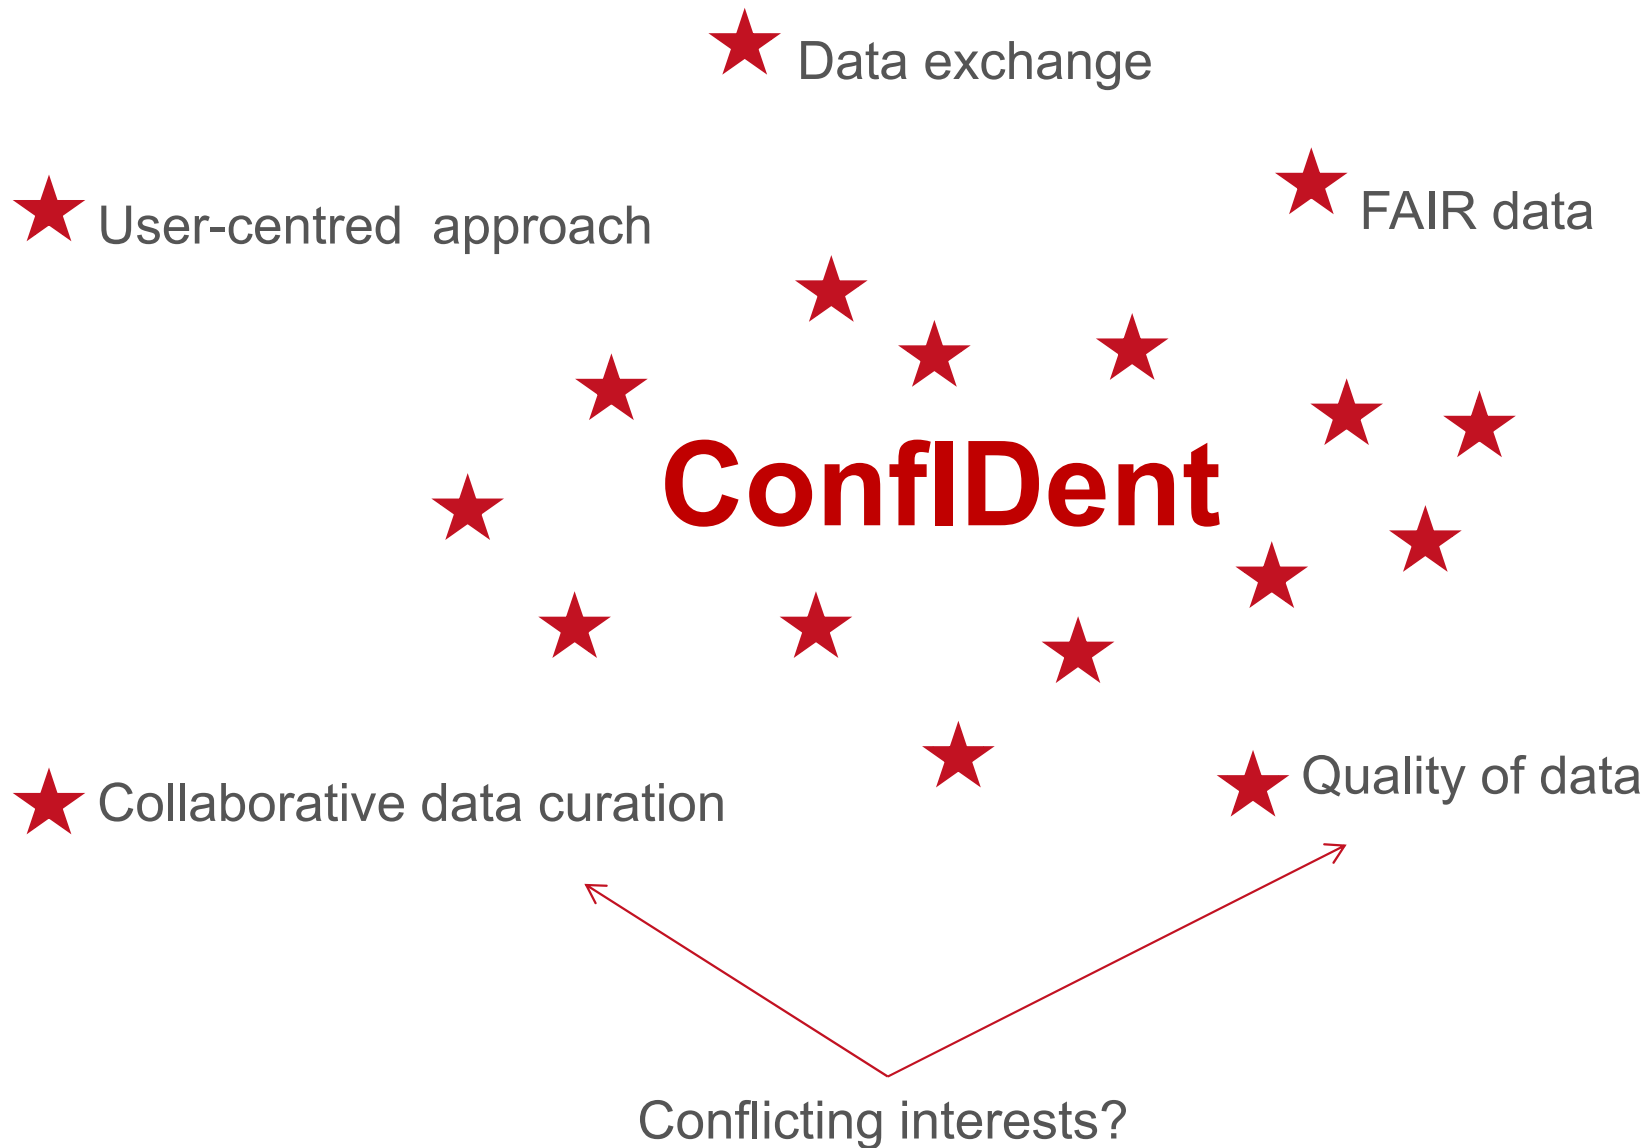

SPSP

- Society for Philosophy of Science in Practice Conference
- Society for Personality and Social Psychology Convention

Potential of PIDs

1. Disambiguation of conference titles & acronyms
2. Standardisation of metadata:
 - fostering interoperability and comparability of metadata
3. Linking of entities, e.g.:
 - Proceedings
 - Videos
 - Researcher profiles
4. Tracing origin of information
 - Who provided the metadata?

Aims of ConflDent

User-centred approach

- Start with pilot communities
- Considering subject-specific characteristics of conferences
- Iterative process of development

Technical base

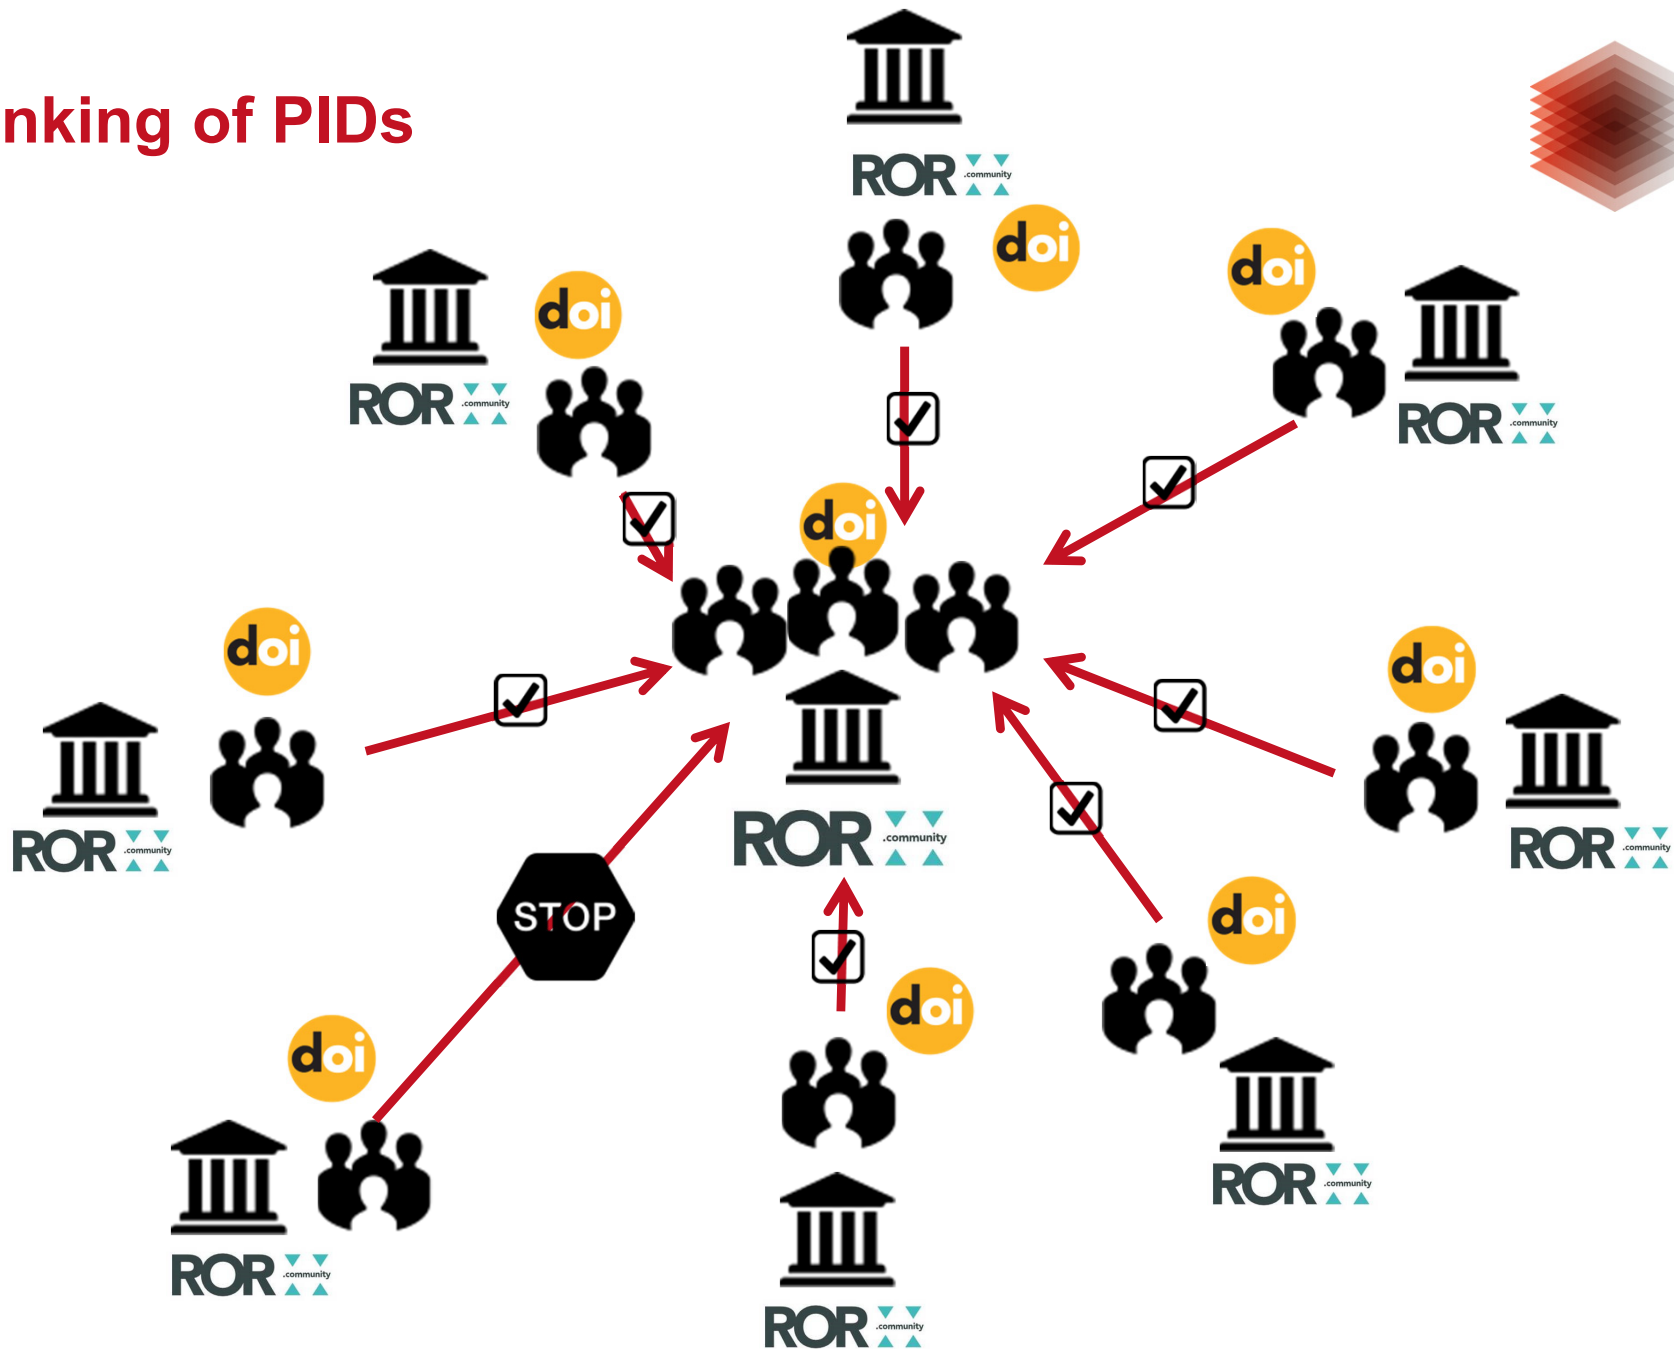

- Semantic Media Wiki based approach fostering openness and extensibility
- Domain specific ontology
- Collaborative data curation → needs mature roles & rights management

Metadata

- Defining framework for high quality of metadata and content
- Interoperability with existing services and platforms
- PID registration for standardization & quality management

Linking of PIDs

Stakeholders

- Researchers
- Research institutions
- Libraries
- Sponsors
- Publishers

Extensional use of data

- Increase visibility of conference activities as academic performance
- Increase documentation of conference activities → CRIS
