A one platform approach to research management

Jon Hackney, Worktribe

Joint euroCRIS + EARMA panel
Where it all started...

- Nottingham, 1992
- Founded in 2002
- Focused on HE in 2011
Trusted by leading universities.
Driven by user-led innovation

- Active online community
- Special Interest Groups
- Annual conference
A shared vision.

To work together to develop a futureproof cloud-based platform that enables:

- More collaboration
- More transparency
- More efficiency
Worktribe™ Research

- Pre-project
- Funding award
- Post-award research project
- Post project

- Opportunities
- Pre-Award
- Post-Award
- Ethics
- Outputs (Repo)
- Profiles
- Impact
- REF
- Contracts

Worktribe.™ Research

- Simply everything in one place
- Configurable software platform
- Open API for integration
Why one platform?

- One platform for academics to manage their research projects across the research lifecycle.
- A single source of research project information, for better reporting (BI and MI).
- More accountability and transparency.
- Faster implementation, easier integration.
Thanks for listening...
