- Title
- Domain
- Advisor
- Full affiliation
 - Town, region, country
 - Type of institution
- Hosting institution
- Funding agency
- Research project
- Patent
- Members of jury
- ...

CERIF

- Core entities: *Person, Organization*
- Result entity: *ResultPublication*
- 2nd level entities: *cfCountry, cfLang, cfFundProg...*
- Semantic layer: *types of theses, role of person (author, advisor)...*

Extended format

- Derived from metadata and catalog records
 - Roles: chair, committee member
 - Attributes: different dates, levels of indexing (topic, discipline), name of degree, links to full text and data
- Preference for ETD-MS (NDLTD) and MARC
- Adaptation to local systems (content, format)
- Matching with evaluation needs (not all information may be needed)

Recommendations

- ETD should be part of CRIS
- Only validated theses should be taken into account
- Metadata should be as standard and as rich as possible and compliant with CERIF and OAI-PMH
- Metadata should be linked to full text
- Special attention should be paid to complementary material submitted along with ETD

Thank you!
