

Toward Secure and Scalable Collaborative Platform to Support the Research Lifecycle

www.cnrs.fr

René Pelfresne, DSI CNRS, IT Urbanisation Manager, and
Zenaida Tucsna, CoRE Project Manager, CNRS

P. 01

PRESENTING CNRS: AN ESSENTIAL RESEARCH CONTRIBUTOR FOR THE BENEFIT OF SOCIETY

- | CNRS is a scientific and technological public organization under the responsibility of the French Ministry of Higher Education and Research
- | It carries out research in all fields of knowledge and must meet **3 key targets**
 - | Pushing back the frontiers of science
 - | Meeting the major challenges facing our planet
 - | Promoting cutting-edge technology

P. 02

PRESENTING CNRS: A STRONG PRESENCE IN RESEARCH AND HIGHER EDUCATION FRONT

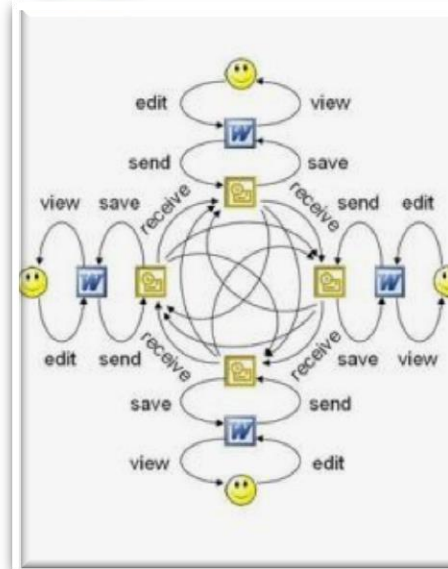

- | CNRS works in **partnership** with Research and Higher Education Centers (PRES), universities, engineering and management schools, as well as with other research organizations
- | More than **28,500** publications on average in high-caliber international journals each year, half of which are published jointly with an external organization
- | **18** Nobel prize laureates and **11** Fields Medal winners
- | CNRS is a key player in the French government's « **Investments for the Future** » program and have an ambitious research policy

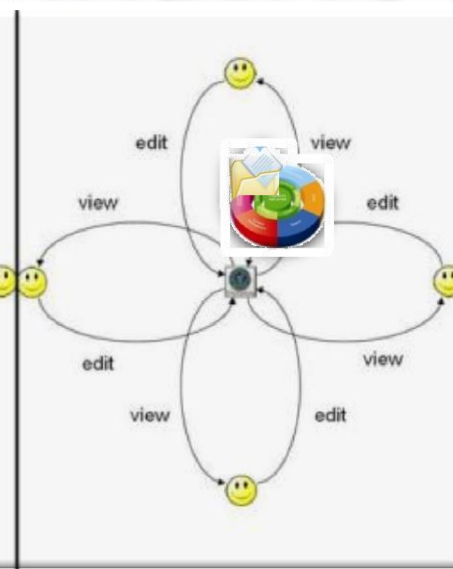

CoRe (based on MS SharePoint)

Collaborative environment for researchers and research groups,
document management,
federated search,
social networking,
real-time communication, blogs, wikis.

Email

CoRe (SharePoint)

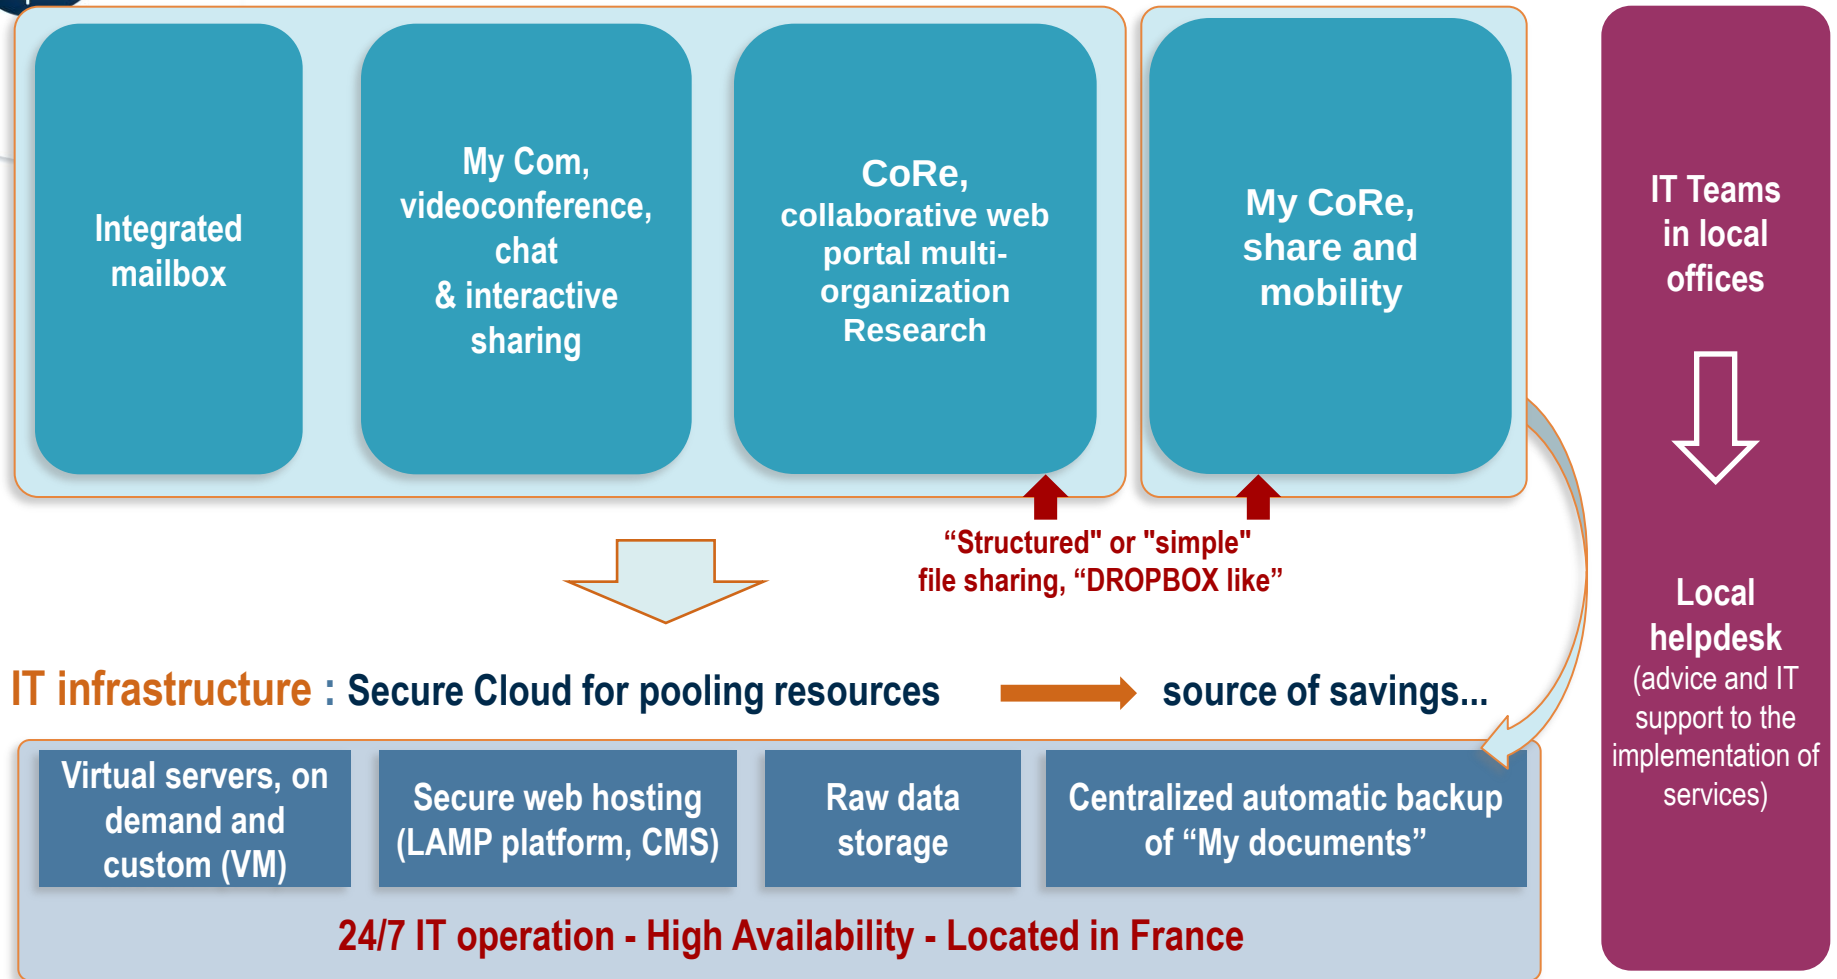

Several
versions of the
same
document

Unique
document
(automatic
history)

Goal: simplify and secure collaboration in research laboratories, reduce entropy

CoRe : IT for Research : « Services for laboratories »

Support for cross-institutional discovery and collaboration

 **CO** Communauté pour la REcherche
RE Community for REsearch
