Experiences integrating OAR

- In production

- In development

Integrating CRIS – OAR. General characteristics

- Main goal: avoid double recording of data by the researcher.
- Metadata generation from curricular activities: Technical Scientific Documents, Journal Articles, Book Chapters (and proceedings), Participation in broadcasting events (Congresses Contributions), Books and Monographs…
- Multidisciplinary projects: CRIS, OAR, Research Management Departments, Libraries. Need to align interests.
- Ad-hoc workflows and scope

Succeding points

- Smart workflow
- Data interfaces between OAR and CRIS
- Identity Management
- Internal Communication
