Welcome to Eunis

We are the European University Information Systems organisation. Our mission is to help member institutions develop their IT landscape by sharing experiences and working together.

www.eunis.org

What is EUNIS today?

100+ institutional members

Organisations and partners

Corporate members

Members by correspondence + honorary + personal members

25 Organisations and partners

euroCRIS

euroCRIS is a not-for-profit, statutory association, governed by Dutch law, dedicated to the development and implementation on an institutional, national as well as international level of top-quality research information systems and their interoperability, based on CERIF (Common European Research Information Format); and to the promotion of cooperation and sharing of ideas between stakeholders in the research information domain.

Vietsch Foundation

The **Vietsch Foundation** mission is to promote research and development of advanced Internet technology for scientific research and higher education. The Vietsch Foundation fulfils its goals in two ways: first, it contributes funding to specific research and development projects that demonstrate potential value to progress European and global research and education networking. And second, each year it awards a medal of honour to people who have contributed to the development of services or technologies of lasting value that are used by the networking community and its users in research, development and education.

- 2017

EUNIS workshop
December 12-13 2017
Lisbon, Portugal

InfoSec + BencHEIT
ISCTE IUL

Registration open till 24th November 2017

Upcoming events

12 Dec

The Data Protection and IT Security workshop, organised by the [InfoSec Task Force](#), aims to address the GDPR further implementation from a HE practical point of view and focus strongly on solutions that will help us in becoming compliant.

13 Dec

EUNIS [BenchHEIT](#) annual meeting is a great opportunity for networking, discussion and sharing experiences between institutions that have been part of IT benchmarking projects.

Lauritz B. Holm-Nielsen

Lauritz B. Holm-Nielsen, expert (Denmark). Executive Director of the Sino-Danish Center (SDC), Beijing. He was the Rector of Aarhus University from 2005-2013, and is High Level Advisor to the Senior Management Group at Aarhus University (AU).

He is Chairman of the Danish National Fund for Nature. He is President of EuroScience, Strasbourg, and member of the Governing Board of Gothenburg University, Sweden. As rector for the Danish Research Academy (1986-93) Holm-Nielsen was in charge of reforming research training in Denmark and for introducing Ph.D. programs in Denmark's research universities.

He was global lead specialist for higher education, research and innovation at the World Bank 1993-2005. Holm-Nielsen was member of the Danish Prime Minister's Growth Forum, Chairman of the Science Research Council and of the national committee for research infrastructure, Vice-Chairman of the Danish Research Commission (White Paper), vice-president of European University Association (EUA), chairman of Nordic Academy for Advanced Study, and the Nordic University Cooperation, and member of several OECD expert review teams and other international review and advisory panels on higher education and research.

BencHEIT Task Force

- Our mission
 - to implement a European level survey on ICT costs and the use of ICT technology in higher education institutions
- Current activities
 - Results for the 2016 survey published to participants: 57 organisation in 12 countries
 - Co-operation within the CHEITA group
- What's next?
 - December 2017 (Lisbon, Portugal)
 - Ongoing recruitment for new participants
 - Preparations for the next round
- Chair: [Ilkka Siissalo](#)

You may look at the survey results of those participants which gave permission to publish their data on BencHEIT website:

<http://www.eunis.org/task-forces/benchmarking/>

Summary of BenchEIT survey 2016

<http://www.eunis.org/task-forces/benchmarking/results/>

Business Intelligence Task Force (BITF)

- Our mission
 - Promote the creation of a European collaboration network to exchange and share knowledge and experiences on business intelligence in HE institutions
- Current activities
 - Focus on learning analytics
- What's next?
 - The A-Z of Learning Analytics, Manchester, UK, 7th November 2017 (EUNIS BI & Learning Analytics workshop)
 - Edition of an issue of EUNIS journal dedicated to BI (2017)
- Chair: [Elsa Cardoso](#)

Information Security (InfoSec) Task Force – new 2017

- Our mission
 - The InfoSec Task Force aims to share knowledge about information security development and compliance, as well as solutions to support the implementation of the GDPR from the information security point-of-view
- What's next?
 - InfoSec workshop on GDPR in December 2017, Lisbon, Portugal
- Chair: [Anne Hintzell](#)

Learning and Teaching Task Force (LTTF)

- Our mission
 - To enhance learning and teaching by the exchange of ideas and sharing of good practice
- Current activities
 - focus on assessment and feedback - workshop and piloting of tools & resources developed by member organisations
 - e-learning award 2017
- What's next?
 - webinars with key suppliers
 - The A-Z of Learning Analytics, Manchester, UK, 7th November 2017 (EUNIS BI & Learning Analytics workshop)
- Chair: [Gill Ferrell](#)

Student Mobility Task Force

- Our mission
 - To work on improving the exchange of academic information in electronic form by promoting standards and testing them in real projects; and to help the community to stay interconnected and aware of developments in many fora
- Current activities
 - EUNIS Students Mobility Task Force members are involved in project supporting student mobility, among others in [EMREX](#) and [EWP](#)
- What's next?
 - Keep our participation in projects and networks like the [Groningen Declaration](#)
- Chair: [Carmen Diaz](#)

Student Card Task Force – new 2017

- Our mission
 - to pool at European level reflections on matters that concern the uses and services related to the multiservice student card. Its focus is to aggregate various studies and feedback and to be proactive in projects affecting or representing an interest at European level
- Current activities
 - Studies on the deployment of the student ID card at European level
 - Participation in projects, as the European student ID card project
 - Cooperation with [ECCA](#)
 - Organization of training courses and events
- Chair: [Frédéric Bigrat](#)

EUNIS Research and Analysis Initiative (ERAI)

- Our mission
 - To provide a platform to share good practices, surveys, interviews and insight into the current situation of the European higher education IT sector.
- Current activities
 - European Journal of Higher Education IT is in place (7 issues so far)
 - ERAI blogging; ERAI specific articles have been published
- What's next?
 - Continue publication of articles, surveys, interviews and case studies
 - Continue building the network and plan future thematic work
 - Explore funding opportunities
- ERAI Project manager: [Johan Bergström](#)

CRIS/IR Survey report

March 1, 2016 Johan Bergström Article, Partner, Report 0

CRIS/IR Survey Report

Current Research Information Systems (CRISs) and Institutional Repositories (IRs) are two main components of the Research Information Management realm. The rising strategic importance of CRISs and IRs for higher education and research institutions is linked to the need of fostering research and innovation.

The features of these two systems have gradually been extended and their role within the institutions is permanently evolving as an answer to new policies on Open Access, National Assessment and Research Funding. As a result of this evolution, we often see now CRISs acting as repositories, CRIS-like repositories with extended data models, a wide range of interoperability features between co-existing CRISs and repositories and even a new species in the ecosystem that claims to be both a repository and a CRIS.

Survey on Research Information Management Practices

euroCRIS
Current Research Information Systems

[euroCRIS](#), a Strategic Partner of EUNIS, and [OCLC Research](#), recently announced a jointly-developed [Survey on Research Information Management Practices](#), which offers research institutions worldwide the opportunity to share information about their practices.

We kindly invite your institution to participate in this international initiative and to share information about your research information management practices.

The survey is available [online](#) until early January 2018. Please contact Rebecca Bryant at bryantr@oclc.org with questions.

Broadly defined, research information management (RIM), also commonly known as CRIS (Current Research Information Systems), is the aggregation, curation, and utilization of information

New joint initiative

- Analysing the role of CRISs within the Higher Education IT ecosystem
 - Following-up the joint survey CRIS-IR
 - In liaison with ERAI
 - Based on based on concrete studies and best practices
 - May benefit from conclusions of the worldwide survey on RIM Practices
 - Added-value for Open Science initiatives

New joint initiative – next steps

- Joint EUNIS-euroCRIS working group
- Description of Work (DoW)

Aiming for a white paper to be ready until the end of 2018 to publish in ERAI

Thank you!

Lígia Ribeiro, lmr@fe.up.pt
