

**Support structures to facilitate
the dissemination and implementation
of a national standard for research information**

Sophie Biesenbender*, Sebastian Herwig**

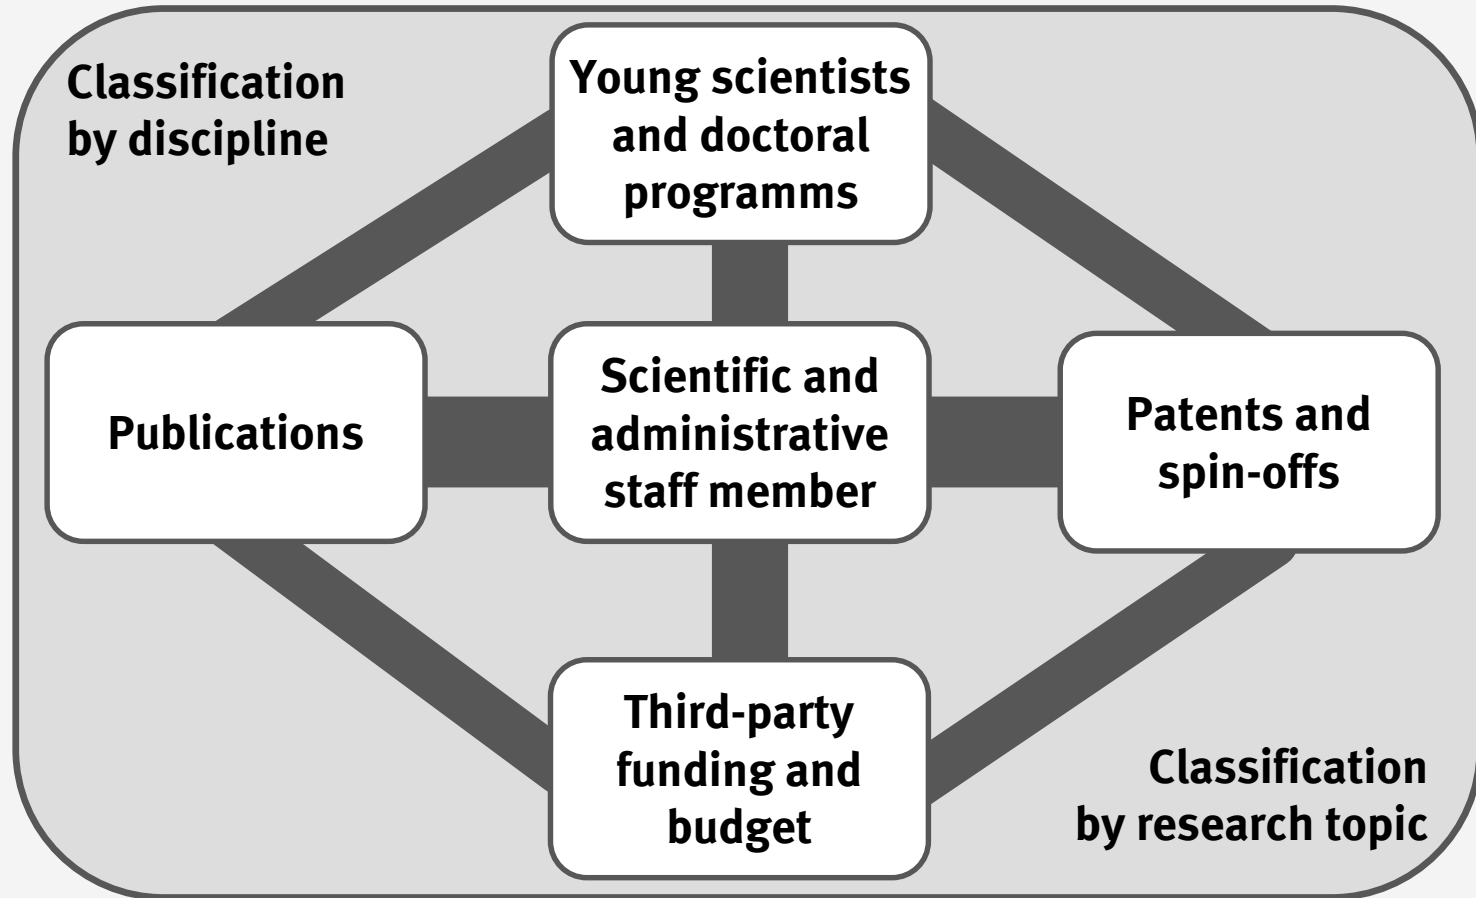

*German Centre for Higher Education Research and Science Studies (DZHW)

**University of Münster / Länder initiative CRIS.NRW

Research information management is handmade

The research core dataset and its dimensions

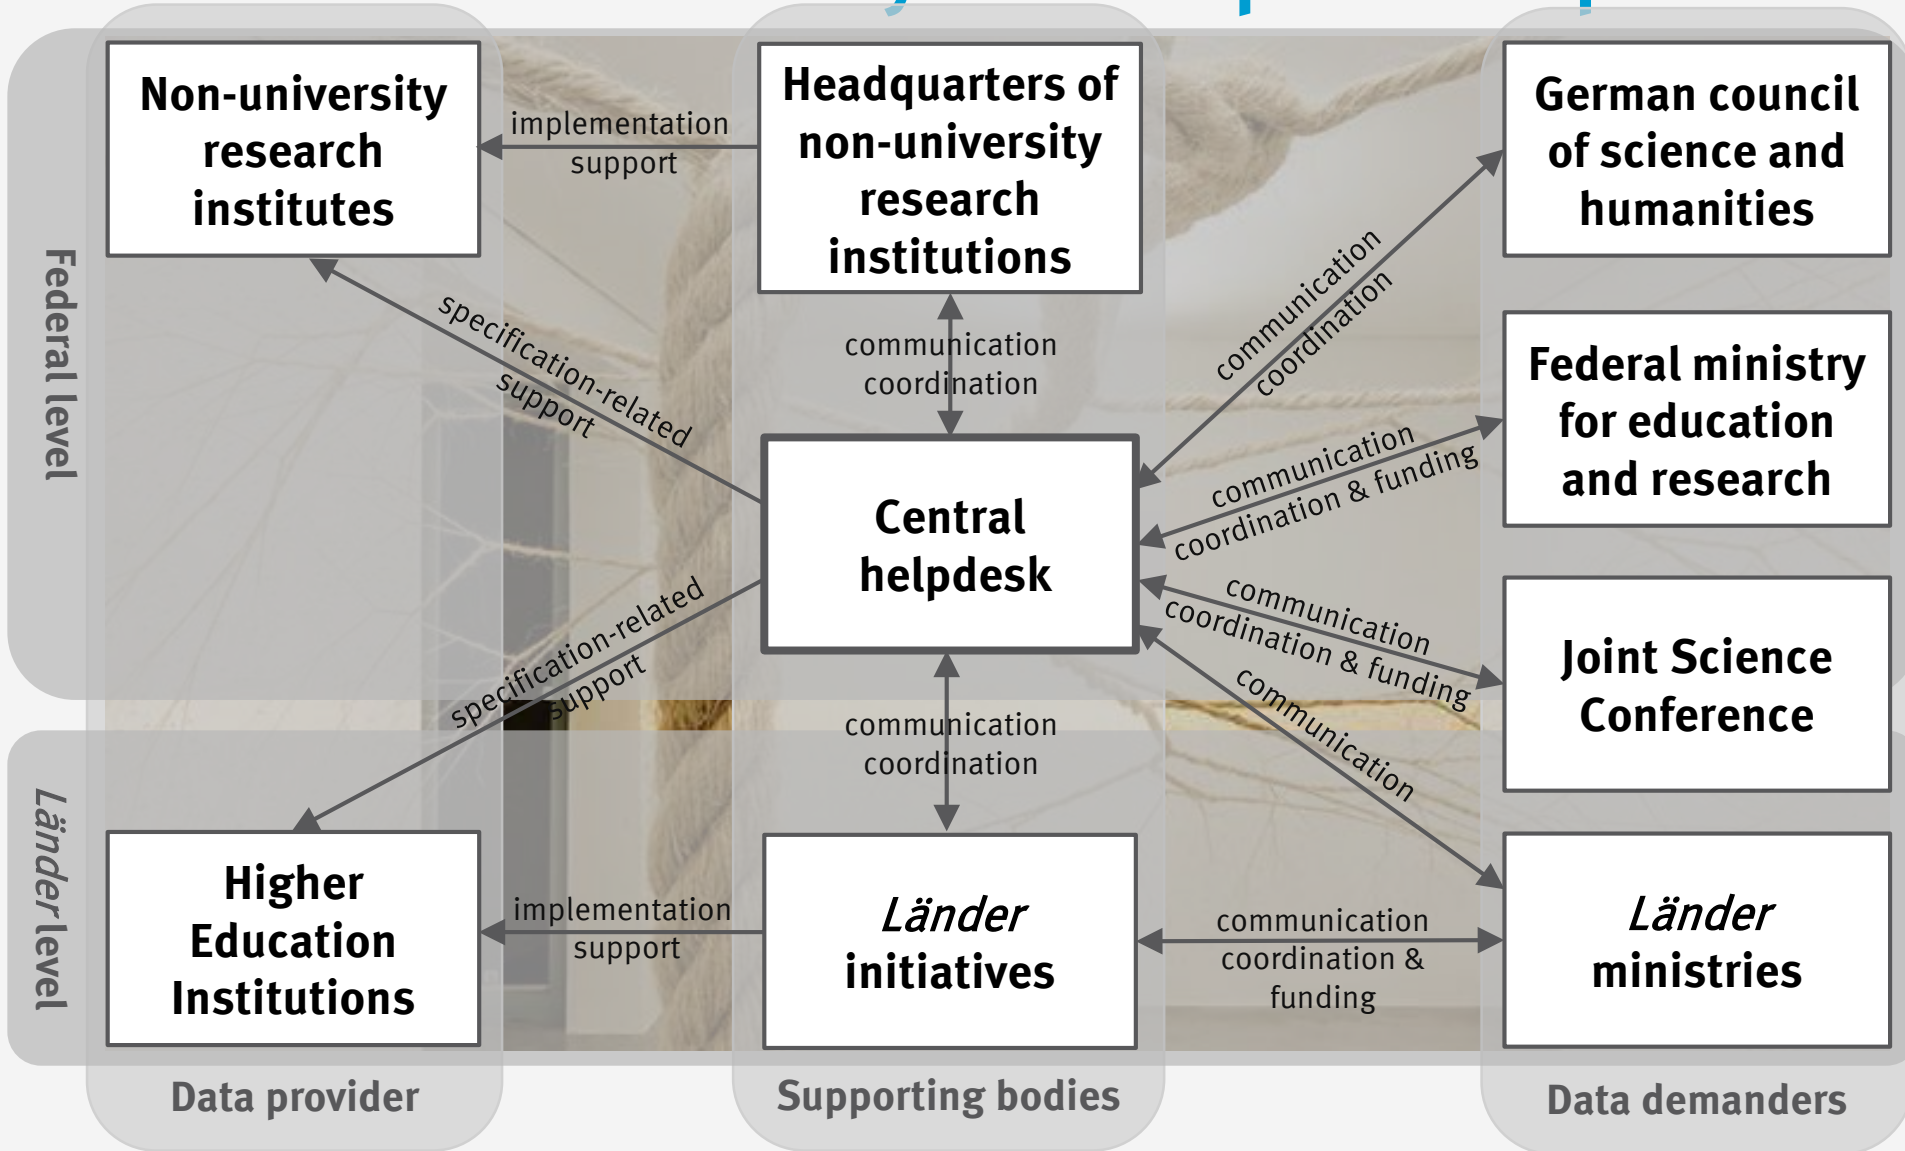

For detailed information about the standard see:
<http://www.kerndatensatz-forschung.de>

The German science system is quite complex

The German science system is quite complex

The RCD is voluntary

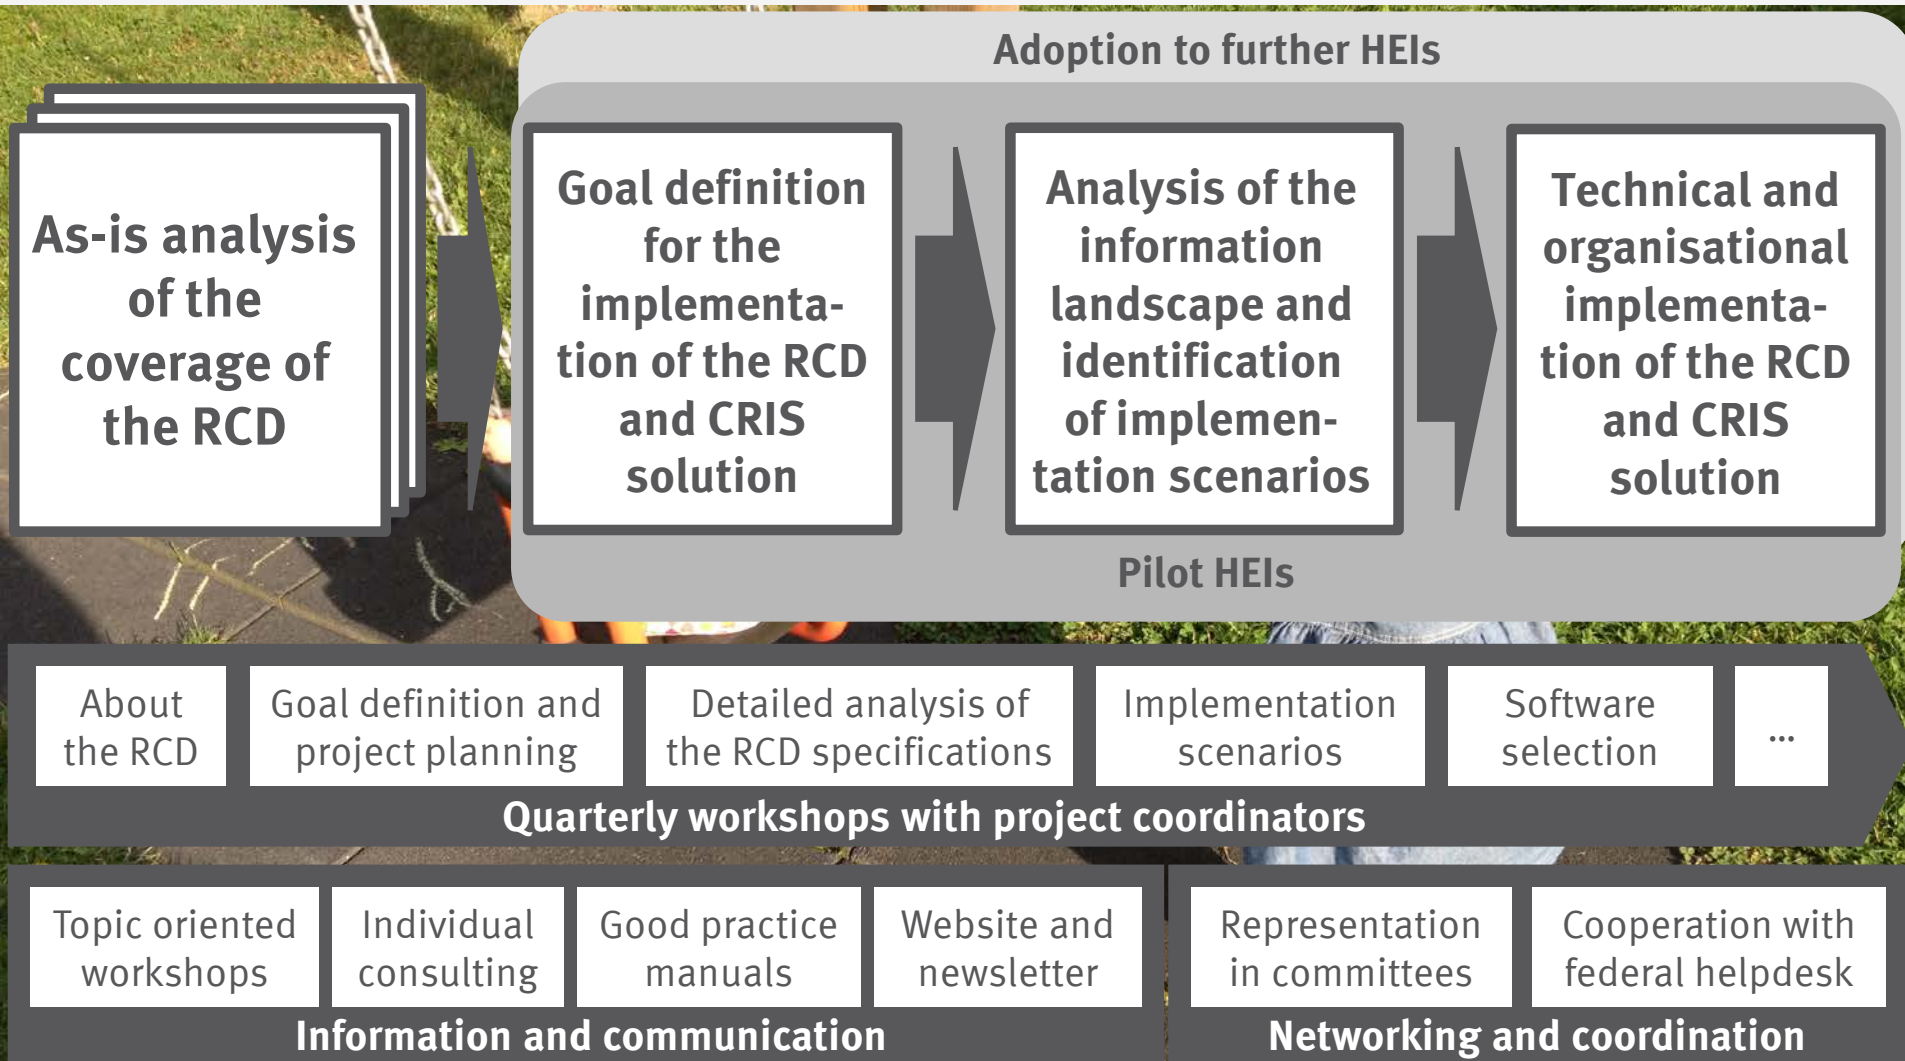

Voluntariness comes with a need for stimuli

Länder initiative: an example from NRW

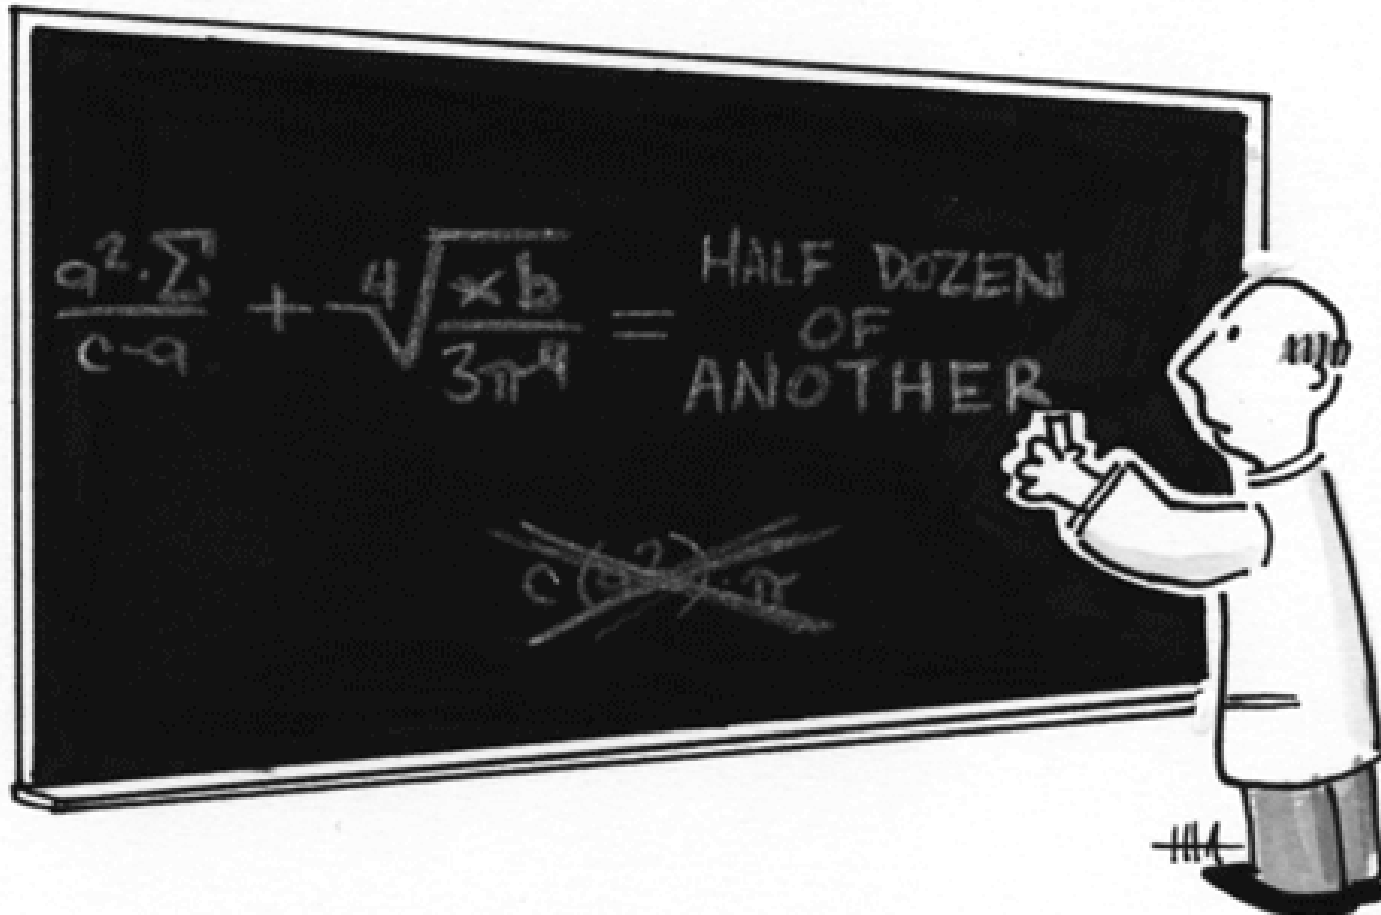

Länder initiative: an example from NRW

Flexibility comes along with complexity
