Open Access to the results of Science and Research

Action plan 2015

Map the state of the OA at the time

Action plan 2017 – 2019

Establish a Contact office for Open Access

Introduce basic principles of Open Access

Ensure the implementation of public license Creative Commons Attribution (CC BY)

Establish and operate a repository

2.2 Open Acces to the results of Science and Research

Positives

SCSTI understands the agenda and is ready to move it forward

SCSTI as a leader of the agenda

Close communication with universities, SAC, libraries

Projects leading to creation of the repository launched

Strong will to amend legislative

Challenges

Current storages have small added value

Scientists and leaders of the academic institutions have weak knowledge of teh agenda and are not as willing ti adapt to changes..

2.2 Open Acces to the results of Science and Research

Commitment No.35:

To introduce the basic principles of open access to scientific publications under a public license under the Operational Program Research and Innovation.

Deadline: May 31, 2017

Commitment No.36:

Ensure the implementation of public license Creative Commons Attribution (CC BY) in the documents, methodologies, manuals and procedures in order to increase their usage by authors and other rights holders in the preparation of scientific papers.

Deadline: October 31, 2017

Commitment No.37:

Commitment No. 37: Establish Contact Office for Open Access.

Deadline: March 31, 2017

2.2 Open Acces to the results of Science and Research

Commitment No.38:

Establish conditions for passportization of open research data under a public license and monitor its implementation in practice

Deadline: December 31, 2018

Commitment No.39:

Establish and operate a repository to provide storage, long-term archiving and access to Slovak scientific and academic publications, research data and gray literature.

Deadline: December 31, 2018

Commitment No.40:

Design systematic benchmarking monitoring mechanisms for the measurement and comparison and propose further analyses related to acquiring, processing and re-use of research data and open access scientific publications.

Deadline: December 31, 2018

2.2 Open Access to the results of Science and Research

Commitment No. 41:

Actively create awareness of the possibilities and advantages of open access in the academic community, among educational institutions, but also in the commercial sector, NGOs and among the general public. Also spread awareness about the benefits of open publishing for the Advancement of Science.

Deadline: December 31, 2018

Commitment No. 42:

Actively participate in discussion forums, programs and multilateral efforts in Europe and beyond to support the creation, improvement, mutual exchange and reuse of open educational resources; ensure international coordination of the activities in the area.

Deadline: December 31, 2018
